

SIPU ZHU

Beijing, China • zhusp22@mails.tsinghua.edu.cn

PROFILE

I am an incoming Ph.D. student in Architecture at Tsinghua University, advised by Academician Zhuang Weimin. My research focuses on spatial intelligence, human–computer interaction, and AI in the built environment.

EDUCATION

Tsinghua University, Beijing, China *Sep 2026 – Expected*
Ph.D. in Architectural Design, Advisor: Academician Zhuang Weimin

Tsinghua University, Beijing, China *Sep 2022 – Present*
Bachelor of Architecture, GPA: 3.89/4.0, ranked 2nd in cohort

PUBLICATIONS

Healing with sight, smell and sound: A virtual reality study on multisensory synergistic stress recovery in hospital staff break spaces
Dalin Lyu, Hengyi Cong, **Sipu Zhu**, Yulong Liu, Weimin Zhuang
Keywords: virtual reality, multisensory design, healthcare architecture, stress recovery
Building and Environment, 2026 [\[link\]](#)

RESEARCH PROJECTS

Human–Robot Interaction in Architectural Space *2026*
Examines how spatial scale affects attention to humanoid robots using eye-tracking.

Evaluation of Aesthetic Perception in Large Language Models *2025*
Compares large language model judgments with human aesthetic responses.

Immersive Architectural Interaction Design with CAVE Projection *2024*
Develops immersive workflows combining CAVE systems, VR simulation, and real-time spatial interaction.

HONORS

Toyota Scholarship, Tsinghua Alumni Comprehensive Excellence Scholarship (2025)

Cheng Xiankang Memorial Scholarship (2024)

Guangyi Design First-Class Scholarship (2024)

Outstanding Social Work Scholarship (2023)

RESEARCH INTERESTS

Architectural Design, Spatial Intelligence, Human–Computer Interaction, AI in Architecture, Urban Studies

EMPLOYMENT

Tsinghua Architectural Design and Research Institute, Beijing, China *Feb 2026 – Present*
Intern

Vanke Southwest Architectural Design Research Center, China *Jun 2024 – Sep 2024*
Intern
